

Dear Colleagues,

Greetings from RWTH International Academy.

Despite the uncertain times, we are happy to announce our 2021 Summer Schools at RWTH Aachen University, which we are planning to realize **on campus** in Aachen. Almost all our 2021 summer programs will have an **online** alternative allowing us to conduct our content in a safe digital space, in case international travel restrictions hinder us from doing it here in Aachen.

We would appreciate if you could **share these great news with the Politécnica de Madrid student community** as well as faculties.

Our programs are designed for undergraduate students of **engineering** or related subject areas, who want to learn about German engineering and student life at one of Europe's leading technical universities. For an unforgettable summer experience students may check out our portfolio:

Choose the program which suits you best and **apply before March 1st to benefit from our Early Bird Discount!**

Engineering

[Automotive and Mobility Studies](#) (June 14 – July 9, 2021)

[Robotics, Communication Networks and Innovation](#) (June 28 – July 16, 2021)

[Automation and Simulation](#) (July 12 – 30, 2021)

[Production Technology meets Industry 4.0](#) (August 1 – 21, 2021)

[Robotics for Future Industrial Applications](#) (August 2 – 20, 2021)

Engineering & Management

[Supply Chain Management & Logistics](#) (June 21 – July 2, 2021)

Electrical Engineering

[Smart Electrical Power Systems](#) (July 5 – July 16, 2021)

[Sustainable Energy Technology](#) (July 19 – 30, 2021)

Please refer to our [Summer Schools Flyer](#) and [Parents Guide](#) for further information and check out the recent updates on our [Coronavirus policy](#).

We would be delighted to welcome students from Politécnica de Madrid to Aachen!
